

# Tongxiang Danatesi Apparel Group

## Danatesi Apparel Catalog

Tongxiang Danatesi/ Jian Jian Group is a one-stop solution that features a diversified sourcing model built on a foundation of several company owned factories as well as our own knit fabric mill. We have the abilities to produce fabric internally, as well as a close partnership with a print factory where we can develop and produce custom camo prints from the ground up. Our relationships and years of experience reflect a flexible business platform that can be molded to match each customer's unique needs and requirements.

Tongxiang Danatesi / Jian Jian Group's diversified sourcing model is built on the foundation of:

#### Extensive Factory Base

By owning several factories in Southern China and establishing long term partnerships with others in China, Vietnam, Myanmar, and Cambodia, we can ensure the right product is being produced in the best facility.

#### Support from Beginning to End

Our goal is to make this process easy. We offer design, production and shipping capabilities in order to support your dream.

#### An Experienced Team

Our members in our China, Canada and USA offices are dedicated and experienced. Together, we bring to you a one-stop solution offering exceptional products and an ease of mind.

Wind-Defender Fleece Jacket is an all-around hunting jacket built for protection against wind and moisture. Soft, quiet, quick-dry fleece combined with impressive protection from the elements. Detachable hood, two side zip pockets, zip chest pocket, zipper tabs and drawstring tabs at the bottom and mesh inner liner round out the features.

Lightweight long-sleeve shirt. It's constructed with 2-way stretch textured poly mesh fabric, and treated with odour controlling Polygiene technology, which neutralizes odour by stopping the growth of odour-causing bacteria.

Thermolite Jacket is a versatile mid to outer layer insulated piece when you need a little more warmth. Made of 100% micro ripstop polyester with 100 grams of Thermolite synthetic loft insulation in the body and 80 grams in the sleeves to reduce bulk. Quilt stitched ripstop polyester secures the down in place.

Elevation Tee is the lightweight short sleeve t-shirt. It's constructed with 2-way stretch textured poly mesh fabric and treated with odor controlling Polygiene technology, which neutralizes odor by stopping the growth of odor-causing bacteria.

The perfect breathable base layer that by itself provides excellent protection from the sun and small cuts and abrasions while finding your way through the brush.

Crafted from 100% polyester material, this hunting vest provides a comfortable feel all day long. Scent control technology and water and wind resistant technology

## Danatesi Apparel Catalog

This shirt jacket is insulated to keep you warm, and has a button-down placket. The scent control and the camouflage-printed side aid in keeping you concealed, or invert the jacket to the solid side for work.

Hunting bib with fully water, windproof shell and PrimaLoft hi-loft silver 80 gr insulation

Ultra comfortable lined pants that easily slide in and out of waters; water/wind-resistant.

Reversible insulated jacket, front snap closure, water-resistant, windproof, breathable shells, regular fit and Harness Access.

Polyester and cotton twill blend offers warmth without bulk. Hidden snap down collar and button down chest pockets.

Insulated Bib features 165 gram micro fleece outer fabric bonded to an ultra light 4-way stretch wind-proof membrane. Estimated temp range: 10-30 degrees, lower with layers.

Built with archery hunters in mind, this camo pant is designed to keep you quiet, hidden, and comfortable. Built with double weave fabric and antimicrobial technology scent control.

Fully adjustable weight distribution system, strap style vest with ample room for game, shells, and extra gear.

Incredibly lightweight, ultra-warm and extremely packable mid-to-outer layer insulated piece. Made from 100% Nylon Ripstop with 4-way stretch.

Rugged casual jacket that can be worn with or without the removable hood and inner placket. Cotton Fleece hood has an attached front zippered placket to add to the layered look.
